Washington, D.C. 20510**- Requests are due by February 15, 2008.**

## FISCAL YEAR 2009 PROJECT REQUEST FORM

Project Name: St. George Harbor - (Aleutian Pribilof Island Community Development Association)Project Location: St. George Island, AK

## Project Description (please attach additional pages as required):

The Corps of Engineers has a long standing obligation to complete the St. George harbor improvements needed to make the harbor fully operational, safe, and reliable. The non-federal contributions to the project have been in excess of \$20 million while the Corps' contributions thus far have been less than \$5 million. St. George is in the middle of the Central Bering Sea, the location of one of the largest, if not the largest, commercial fisheries in the world. The Central Bering Sea is also the focus of tremendous federal and international study related to climate change. Economic activity associated with the fisheries and climate change focus along with substantial airport improvements in the Pribilofs and the investments by APICDA and other St. George Island entities in a lodge at St. George (approx \$3 Mil) and Processing Plant (approx \$2 Mil) requires that the remaining portions of the harbor project (dredging to usable depth -20ft, and completing an effective breakwater) be completed.

Related Appropriations Bill: Energy and Water, Corps of EngineersAmount of federal funding requested for FY09: \$5 million**Total** funding to complete this project: \$5 millionNumber of years to fund this project: 1Matching funds from the State of Alaska: \$0

Matching funds from local and private entities:

Please see next page.

If this project was funded in prior appropriations bills (within the last five years), list each bill and the amount funded:

\$0Amount included in the President's FY09 Budget: NoAmount included in the State of Alaska FY09 Budget: \$0☐ Check this box if state funding was sought but not provided.

List legislation that authorizes this project:

N/A**Check all that apply:**

- ☐ A change in the current law is necessary in order to proceed with the project. (If so, attach language and a list of laws that need to be amended)
- ☐ Bill or report language is needed. (If so, attach requested language)

## FISCAL YEAR 2009 PROJECT REQUEST FORM

Project Name: Atka Harbor, Alaska (Aleutian Pribilof Island Community Development Association)

Project Location: Atka, Alaska

**Project Description (please attach additional pages as required):**

APICDA requests \$500,000 for the completion of a feasibility study for the Atka Harbor, Alaska project. Funding would come from the Corps of Engineers. APICDA is willing to provide a match of \$100,000 for this study.

Related Appropriations Bill: Energy and Water

Amount of federal funding requested for FY09: \$500,000

**Total** funding to complete this project: \$500,000

Number of years to fund this project: 1

Matching funds from the State of Alaska: \$0

**Matching funds from local and private entities:**

APICDA is willing to provide a match of \$100,000 for this study.

If this project was funded in prior appropriations bills (within the last five years), list each bill and the amount funded:

\$250,000 was included in the Senate FY07 Energy and Water Appropriations bill, but was omitted from the final appropriations legislation.

Amount included in the President's FY09 Budget: No

Amount included in the State of Alaska FY09 Budget: \$0

☐ Check this box if state funding was sought but not provided.

**List legislation that authorizes this project:**

General authority for studies is granted to the Corps of Engineers in the Water Resources Development Act.

**Check all that apply:**

- ☐ A change in the current law is necessary in order to proceed with the project. (If so, attach language and a list of laws that need to be amended)
- ☐ Bill or report language is needed. (If so, attach requested language)

## FISCAL YEAR 2009 PROJECT REQUEST FORM

Project Name: Pribilof Island Ferry (Aleutian Pribilof Island Community Development Association)

Project Location: St. Paul and St. George Islands, Alaska

## Project Description (please attach additional pages as required):

The Pribilof Islands of St. Paul and St. George are in the middle of the largest fishery in the United States, and extensive research on global climate change impacts on fisheries and wildlife and the environment is underway in the area and is expected to intensify as global warming continues. The two islands are in the Bering Sea and about 50 miles apart from each other. Harbors at both islands have been recently improved, as have the airports. Currently most transportation between the islands is by air, but the skyrocketing cost of fuel and severe weather conditions make it impractical to rely completely on air service, especially for freight transportation. A ferry will provide the residents of the islands with alternative transportation to visit family members or conduct business or scientific activities that involve both islands. APICDA is willing to provide a match for this funding.

Related Appropriations Bill: CJS, EDA

Amount of federal funding requested for FY09: \$2 million

**Total** funding to complete this project: \$2 million

Number of years to fund this project: 1
